

Whole Body Self-Care Assessment

Health starts with self-care. In this assessment, you will think about how well and how often you are performing a variety of self-care activities. The goal of this assessment is to help you learn and think about your self-care needs by spotting patterns and recognizing areas of your life that may need more attention. It will give you a starting point to develop a plan of action so you can live your best life.

This list is not comprehensive. There may be activities that you have no interest in, and other activities that may not be included. There are no right or wrong answers.
